EDUCATION

PhD in Science Computer Science with Interdis App

Aug 2024 - Present

University of Texas Rio Grande Valley

Master of Science Computer Science

Aug 2021 - Dec 2023

University of Texas Rio Grande Valley

GPA: 3.71

Relevant Coursework: Design and Analysis Algorithms, Data Mining and Warehouse, Adv Computer Architecture, Adv Operating Systems

Bachelor of Science Computer Science

Aug 2014 - May 2021

University of Texas Rio Grande Valley

Relevant Coursework: Machine Learning, Database Design and Implementation, Software Engineering 1, Systems Programming

PUBLICATIONS

IntelliBeeHive: An Automated Honey Bee, Pollen, and Varroa Destructor Monitoring System

(ICMLA-Conference 2024)

WORK EXPERIENCE

Graduate Research Assistant

Causality Reinforcement Learning

Jan 2024 - Aug 2024

University of Texas Rio Grande Valley

Explored the integration of reinforcement learning with causal learning to enable robot adaptability in dynamic environments.

Lower Rio Grande Salinity Forecasting

Aug 2023 - Dec 2023

University of Texas Rio Grande Valley

Developed and implemented machine learning models. Pre-processed and visualized data for training.

EXPERIENCE/PROJECTS

Master's Thesis

IntelliBeeHive

Jan 2023 - Dec 2023

The University of Texas Rio Grande Valley

Developed a honeybee monitoring system to monitor the hive's health and behavior using Computer Vision with an NVIDIA Jetson Nano.

Bachelor's Senior Project

An ML-based Embedded System for Inventory Control

Aug 2021 - Dec 2021

The University of Texas Rio Grande Valley

This project uses a Raspberry Pi 4-based ML system for image-based inventory tracking, with AWS-hosted data and secure web access for management and alerts.

SKILLS

- Python • C++ • PHP • JavaScript • Linux • Colab • PyCharm • Blender • Nvidia Jetson Nano • Raspberry Pi
- Fluent in English and Spanish
